

**Laser Sailboat Certification
and Reservations
At
North Shore Yacht Club**

07/27/20

The NSYC is pleased to offer a Laser Sailing Program that allows any member of the Club that wishes to learn to sail a Laser sailboat. Expected launch date is during July 2020 and continues through October 17th.

The Laser Sailboat Program is open to all members of the club, at no additional charge, and not just to those in the Club's Boat Share Program.

Once a NSYC member has been certified to skipper a Laser by the Club's sailing instructor, Olivia Campmany, he/she can sign up via an online reservation system to take a Laser for a sail during any one of three reservation periods each day.

To be certified to skipper a Laser, Olivia is available for lessons through August 21st: M-F evenings only and Sat & Sun all sessions. Certification is at no charge, but lessons are \$65 for two hours and must be paid in advance through the website.

To schedule a lesson, and/or to be checked-out and certified to sail a NSYC Laser, contact Olivia at oliviacampmany@gmail.com or by phone at 347-416-1748. Olivia will then reserve our Laser sailboat ("Laser A") on the Laser Reservation system located on www.nsync.net for the lesson.

Once certified by Olivia to skipper a Club Laser, NSYC members, who have registered at nsync.net, and established a username and password, can use the online Laser Reservation System on nsync.net and make Laser reservations on their own during one of three reservation periods each day.
