

2021 Laser Sailboat Program at North Shore Yacht Club

In 2020, the NSYC offered a Laser Sailing Program that allows any member of the Club that wishes to learn to sail a Laser sailboat. It was launched in July 2020 and will resume in 2021 continuing to the end of the 2021 sailing season.

Once a NSYC member has been certified to skipper a Laser Sailboat by the Club's sailing instructor, he/she can sign up via an online reservation system to take a Laser for a sail on any one of three reservation periods each day.

The Laser Sailboat Program is open to all members of the club, at no additional charge, and not just to those in the Club's Boat Share Program.

Laser Sailboat Lessons do carry a charge of \$65 for two hours.
