

## 2023 Laser Sailboats North Shore Yacht Club

NSYC maintains several Laser Sailboats which allows any member of the Club, in good standing, that wishes to sail (when qualified), or learn to sail a Club Laser sailboat. This alternative continues from year-to-year. **See Photo below.**

Once a NSYC member has been certified to skipper a Laser Sailboat under the auspices of the Club's Fleet Captain, and/or by the Club's Sailing Instructor, they receive "Laser Reservation Rights." Then, he/she can sign up on a "members-only" Laser online reservation system to take a Club Laser for a sail on any one of several reservation periods during the sailing season.

The Laser sailboat alternative is open to all members of the Club, at no additional charge, and not just to those in the Club's Boat Share Program.

Laser Sailboat Lessons, if requested by the student, do carry a charge of \$65 for a 2-hour session.
