

2020 Laser Sailboat Program at North Shore Yacht Club

The NSYC is pleased to offer a Laser Sailing Program that allows any member of the Club that wishes to learn to sail a Laser sailboat. Expected launch date is July 2020 and continues through October 17th.

Once a NSYC member has been certified to skipper a Laser by the Club's sailing instructor, he/she can sign up via an online reservation system to take a Laser for a sail on any one of three reservation periods each day.

The Laser Sailboat Program is open to all members of the club, at no additional charge, and not just to those in the Club's Boat Share Program.
